

Stainless Steel Milk Storage Tanks Plain / Insulated

Investment in equipment of Stainless Steel is a remunerative disposition not least as far as storage tanks for milk & milk products are concerned. With Encon Tanks you are furthermore sure getting first class workmanship, simple construction and easy operation.

Tank is rapidly cleaned by means of turbine which cascades the solution so that the entire surface of the tank receives a through and positive washing. Cleaning as well as sterilization can be effected by means of the turbine so that it's not necessary to open the tank; air born infection is thus effectively counteracted. The tank is however easy to access through man way.

1. Legs are with adjustable feet.
2. Clearly graduated scale with lighting device for milk capacity reading.
3. East readable dial thermometer.
4. Insulation Options – Puff / Thermo-col
5. Outer Cladding Options – Stainless Steel – Powder coated Steel
6. Non foaming inlet valve & breather valve provided.
7. Agitators options – On side, Top vertical or Pump circulation assisted.
